

TOPDENT PERLADIA

Abrasive rubbers with large filling content of high pure diamonds

NEW

Due to the unique bonding technology of rubber and diamonds the PERLADIA enables simultaneous **removal and polishing of zirconia, pressed ceramics and ceramics in one operation** on nano level.

Therefore plaque adhesions to ceramic restorations are kept to a minimum.

- Long service life
- Can be used up to the head of the mandrel
- High quality and workmanship
- Efficient removal with simultaneous nano polishing
- Low heat generation due to high diamond content
